Accountants™**

## Select University Accreditation Program Update

To recognize this commitment to excellence, CMA Canada has established a program to accredit management accounting programs of select universities and to promote this partnership to students and employers. Graduates of accredited programs will be granted an exemption of the CMA Entrance Examination provided the students meet the criteria as set in out in this policy. The purpose of this program is to:

- Assure the supply of well-qualified business graduates for the CMA program.
- Encourage complete coverage of the CMA Competency Map Entrance Requirements in Canada's leading universities.
- Recognize those universities that achieve high standards of instruction in management accounting.
- Encourage universities to pursue excellence in teaching and research in management accounting.
- Provide university students with assurances as to the quality of management accounting programs leading to the CMA designation.
- Attain greater influence for CMA Canada in leading Canadian business schools.

Graduates from qualified accredited programs who have a minimum overall grade point average of 75% or 3.0 on a 4.0 point scale will be exempt from writing the CMA Entrance Examination.
